A passionate cross-platform app developer with 3+ years of experience building intuitive, high-performance mobile and web applications in Flutter and React Native. Adept at delivering elegant UI/UX designs, integrating cutting-edge technologies like Blockchain and AI, and solving complex technical challenges. Proficient in crafting solutions that enhance user engagement, from state management and guided tours to secure payment systems and dynamic subscriptions. Known for launching impactful apps, such as a government platform with 80M+ users and a Web3-enabled quiz app. Seeking to leverage expertise to create meaningful digital experiences.

Accomplishments

- Promoted to **Senior Flutter Developer** within **18 months** of employment.
- **Government App Transformation:** Redesigned and developed a government app serving 80M+ users, enhancing UI/UX and integrating complex new features.
- **Web3 SDK Development:** Created an SDK for Relayer, enabling seamless integration of targeted Web3 offers, boosting client engagement and adoption.
- **Practice Coach App:** Built an AI-powered app that analyzes golf session data and recommends personalized improvement exercises, elevating user performance.
- **Dynamic Subscriptions:** Successfully implemented custom subscription models using Stripe, enabling users to input personalized amounts for recurring payments.
- **Blockchain Integration:** Overcame challenges of integrating Blockchain into Flutter apps, pioneering solutions with limited resources and tools available.
- **UI/UX Design Expertise:** Designed visually compelling and user-friendly interfaces for diverse client projects, aligning with brand goals and user needs.

| ● Team collaboration | ● User experience design |
| ● API integration | ● Requirements gathering |
| ● Technical analysis & documentation | ● Project management |

Work History

Freelance Developer | Building Cross-Platform Apps

Freelance, India

January 2025 - Current

- Designed and developed apps for diverse clients, leveraging expertise in Flutter and UI/UX design.
- Delivered projects such as Inventory Pro, Fitcentive, and Attendance Management System catering to specific business needs.
- Specialized in creating scalable, secure, and user-friendly applications with features like dynamic subscriptions and guided tours.
- Built lasting client relationships by offering timely updates, addressing feedback, and providing post-launch support.
- Maintained a strong online presence through blog posts, app showcases, and brand

collaborations.

Senior Flutter Developer

*MobileFirst Applications | Fintegration,
Ahmedabad, Gujarat*

February 2024 - January 2025

- Led the development of complex Flutter applications, managing the entire software development lifecycle.
- Spearheaded high-impact projects such as NPS (80M+ users) and Practice Coach (AI-driven golf improvement app).
- Implemented advanced technologies, including Blockchain and Web3 integrations, to create innovative solutions.
- Collaborated with cross-functional teams to deliver apps that met user needs and exceeded client expectations.
- Advocated for best coding practices, improved CI/CD pipelines, and ensured efficient project delivery.

Flutter Developer

*MobileFirst Applications | Fintegration,
Ahmedabad, Gujarat*

July 2022 - January 2024

- Built and maintained mobile applications using Flutter, focusing on high-performance and responsive design.
- Worked with state management solutions like Provider and BLoC for a scalable architecture.
- Integrated APIs, Firebase, and third-party services to create seamless user experiences.
- Enhanced app performance and user retention through optimized UI/UX and robust testing processes.
- Contributed to team success by mentoring junior developers and participating in code reviews.

Intern

*MobileFirst Applications | Fintegration,
Ahmedabad, Gujarat*

January 2022 - June 2022

- Gained hands-on experience in state management, API integration, and debugging.
- Collaborated with the development team to design, test, and deploy app updates.
- Explored new technologies and approaches to streamline processes.
- Analyzed problems and worked with teams to develop solutions.

Freelance Software Developer

Freelance, Jetpur

July 2020 - September 2021

- Worked on part-time freelance projects during college, developing web and mobile applications using PHP, JavaScript, jQuery, and Native Android.
- Built and deployed Data Manager, a Native Android app for efficiently organizing and managing user data, achieving a streamlined user experience.
- Designed and implemented client projects, including dynamic websites and interactive features, ensuring timely delivery and high client satisfaction.
- Gained hands-on experience in problem-solving, debugging, and collaborating with clients to meet project requirements.
- Laid the foundation for advanced app development skills, transitioning later into Flutter development.

Android Developer

InfoLabz, Ahmedabad, Gujarat

May 2021 - June 2021

- Completed a 3-week internship as part of the college curriculum, focusing on learning the basics of Flutter app development.
- Gained foundational knowledge in creating responsive UIs, working with widgets, and handling state management.
- Developed 2-3 small prototype apps, showcasing key Flutter features such as layouts,

navigation, and API integration.

- Enhanced understanding of mobile app development principles, laying the groundwork for advanced project work.

Education

Bachelor of Engineering - BE in Computer Engineering May 2022

OM ENGINEERING COLLEGE CHOKLI, Junagadh

Diploma in Computer Engineering January 2019

Om Institute of Engineering And Technology

High School Diploma April 2016

St. Francis School, Jetpur

Key Projects

1. NPS (Flutter)

- **Description:** Transformed a government app used by over 80 million users.
- **Key Achievements:** Improved UI/UX and implemented advanced features to enhance user experience and accessibility.

2. ShotCaller (Flutter)

- **Description:** Built a sports quiz app with games for NBA and NFL fans.
- **Key Achievements:** Integrated Web3 features, enabling users to earn NFTs and rewards while engaging with trivia.

3. Relayer SDK (React Native)

- **Description:** Developed a React Native SDK for Relayer's Web3 APIs.
- **Key Achievements:** Simplified integration for clients to showcase and curate targeted offers, boosting adoption of Relayer's services.

4. Practice Coach Golf (Flutter)

- **Description:** Created an AI-powered app to analyze golf session data and provide personalized training exercises.
- **Key Achievements:** Improved user performance through tailored recommendations and data insights.

5. Stock Tutor (React Native)

- **Description:** Designed and developed a stock market education app.
- **Key Achievements:** Provided an intuitive interface for users to learn stock trading and analyze market trends.

6. Inventory Pro (Flutter)

- **Description:** Developed a Flutter-based inventory management and billing software that is compatible with Windows, Mac and Linux
- **Key Achievements:** Streamlined inventory tracking and management for users with a clean, efficient interface and powerful features.

7. Fitcentive (UI/UX)

- **Description:** Led the UI/UX design for a fitness app incentivizing healthy habits.
- **Key Achievements:** Delivered a vibrant, user-friendly interface that aligned with client

goals and user expectations.
